INTRODUCTION to ITCCK

The Italian Chamber of Commerce in Korea (ITCCK) is a non-profit organization established in May 2008 with the aim of strengthening, promoting and supporting cooperation between Italy and Republic of Korea. From the beginning, ITCCK has proved to be a reliable link between the two countries and an essential point of reference for all those aiming to establish ties with one another. The enthusiasm and energy, which have always driven the activities of ITCCK, have made it possible to obtain impressive results in a few short years for its members.

The ITCCK also has enabled a wide range of companies and business entities to become directly involved in spearheading new initiatives for bilateral investment and trade. The presence of ITCCK in Republic of Korea has proved to be expanded particularly after signing the EU-South Korea Free Trade Agreement in October 2010. Analyzing the latest market trends, introducing to appropriate government entity or business partner for collaboration, and serving the interests of both Italian and Korean partners are, but not limited to, the goals that drive ITCCK.
MESSAGE FROM THE AMBASSADOR OF ITALY

H.E. FEDERICO FAILLA
for the ITCCK Membership Directory

The beginning of my second year in Korea has been marked by an unprecedented emergency that is affecting the lives and the economies of most countries in the world, including the Republic of Korea and Italy: the COVID-19 pandemic.

While Italy and Europe are hoping to finally see an end to the contagion, Korea has demonstrated in the last months, through a combination of early warnings, constant medical controls and safety measures, to be able to tackle the spread of the virus and is on the way to recovery.

The present circumstances look very challenging for Italy and for our companies worldwide. And it is a demanding moment also for the Italian Chamber of Commerce in Korea, whose goal is to organize business missions from Italy and to Italy. However, I am confident that the measures taken by the Italian Government and by the European Union will be able to provide the necessary help and boost a fast recovery, putting us on a path that will require time but that will allow our business to flourish again. In this process, the traditional assets of Italians – the spirit of initiative, creativity, flexibility, innovation – will be fundamental to adapt to the new circumstances of the post-pandemic time.

2019 has been a positive year for our bilateral trade: figures from the Italian and Korean official sources show an overall bilateral exchange that is again above 10 billion US dollars and a 2.3% increase in Italian exports to Korea compared to the previous year. Thus, Italy has confirmed its position as the second-largest EU exporter to Korea with outstanding outcomes especially in the sectors: chemical products (+31%), jewelry (+20%), leather (+19.2%).

In conclusion, I am sure that all the members of the Italian Chamber of Commerce in Korea will prove to be strong and resilient in the present time. With the precious collaboration of our Korean partners, our bilateral businesses will restart and the Chamber will more and more be a decisive factor of the relationships between Italy and Korea.

THE AMBASSADOR OF ITALY
Federico Failla
Dear ITCCK Members and Friends,

The COVID-19 crisis as unexpected has it might have been, it is indeed quickly and drastically changing our daily life as well as reshaping the world of business. In this moment of uncertainties, I would like to personally thank all the old members who renewed the ITCCK membership for this upcoming year and all the new members who are joining us for the first time. Thank you all for your support.

Our goal and priority for the year 2020 will be to suit and adapt our activities and services to match the challenges presented by this new economic environment. We are going to channel our efforts to turn this crisis into the opportunity to renew and improve our business solutions and develop new strategies to directly involve and offer quality services to our members.

Even though in some European countries and especially in South Korea the contagion curve appears to flatten, the economic impact of this crisis is going to reverberate in the years to come. For this very reason, we believe that cooperation will be the key to a successful rebuilding. In this light, the ITCCK is ready to support its affiliates and it is looking forward to working together to overcome this crisis.

We stand together in this difficult time

ITCCK PRESIDENT
Alessio Ferraresso

MESSAGE FROM THE PRESIDENT
Mr. Alessio Ferraresso
for the ITCCK Membership Directory

Dear ITCCK members,

It is with great enthusiasm that I start my second year as Secretary General of the Italian Chamber of Commerce in Korea.

The year 2019 had been a crucial year for the Chamber. Among the most relevant goals that we accomplished I would like to particularly mention those projects launched within the “True Italian Taste” framework. “True Italian Taste” is a two-year project directly promoted by the Italian Ministry of Economic Development (MISE) aimed at supporting true authentic Italian F&B products abroad. In the past year, some of our most successful events were indeed part of this bigger scheme, namely the Masterclass with Chef Roberto Carcangiu and the Italian Food Festival 8th edition. In 2019, we also resumed the ITCCK Gala Dinner that saw great participation of more than 10 sponsors and 200 official guests. Moreover, we worked with new partners such as Shinsegae for new ambitious projects such as Italian Weekend which took place at Shinsegae Yeoju Outlets in the month of October. We are looking forward to replicating this success in the upcoming year.

2020 promises to be a difficult and challenging year for the ITCCK. However, I am very confident that with the great effort of my team and the support of the talented members of the BoD we will be able to face adversity and keep providing high quality services for our associates.

To conclude, I would like to personally thank Director Vincenzo Cali’ of the Italian Trade Agency (ITA). The collaboration between the ITCCK and ITA is flourishing and I really believe that this cooperation and the synergies that we are building together will be highly beneficial for both organizations as well as for our dear members.

Thank you for being a member of the ITCCK.

The Italian coast is incredible, displaying stunning landscape of rare beauty, among the world’s most famous wonders.

**General Information**

The Italian Peninsula covers a surface of over 301,323 km².

Located in the southern part of Europe, Italy enjoys its strategic position connecting Asia and Africa. Italy, affectionately known by many as “Bel Paese”, is characterized by a variety of outstanding geographical landmarks. It is partly covered by mountains (the Appennini chain which encompasses a very large area and the 1,200 km-long Italian Alps, with many summits over 4,000 meters high).

Italy is also known for the large Padan plain, for its lakes (especially Garda, Maggiore, Como, Trasimeno and Bolsena) and for the considerable volcanic presence: Etna (the highest volcano in Europe), Vulcano, Vesuvius and Stromboli.
Historically speaking, Italy has not only played a determining role in the development of the Mediterranean region but in the XV-XVI century also founded a whole new way in which the Europe perceives the world and itself, giving birth to an essential cultural movement famously known as “Rinascimento” or Renaissance. During that period, Italy and Europe opened themselves to the “new world” with the discovery of America. In doing so, they boosted their economies thanks to the intensification of international commerce and trade. Moreover, Italy has historically played the role of “bridge” between the East and the West, becoming the first western country to establish commercial relations with China and other eastern countries. Italian international trade sector has developed throughout the centuries, thereby building solid basis in international commerce and allowing the country to become an elite competitor with first-class products. Today Italy is also renowned all over the world for its brands, frequently ranking first in all the productive sectors. In terms of commerce, the main sectors of Italian economy are light manufacturing, transportations and, on the whole, services.

The Italian economy is based on a considerable number of small and medium enterprises, which guarantee the highest quality implied by the “Made in Italy” concept.

The Republic of Korea has a territory of 99,269 km².

Located in Northeast Asia, in the southern part of the Korean peninsula, it is separated from North Korea since the end of the Korea War in 1953.

Mountains cover 70% of the country. Surrounded by the Yellow Sea on the west, by the East Sea to the east and by the South Sea to the south, its shores are approximately 2,413 km long.

Its main attraction is surely the volcanic island of Jeju-do, a touristic destination, famous for its exceptional beauty and for being the largest island among the over 3,350 South Korean islands.
The Republic of Korea is a highly developed country with a high-income economy and a high Human Development Index (0.906), ranking 22nd in the world (2019).

As a member of OECD since 1957, the ROK has constantly recorded positive results in recent decades. South Korea is the fourth economic giant of Asia and the world’s 12th economic power with an annual GDP Growth Rate of 2.0% (2019).

The primary exports of the country are wireless telecommunication equipment, semiconductors, computers, motor vehicles, petrochemicals and ships.

With more than 597 billion dollars of export, Republic of Korea is ranked 6th among world’s exporters and represents an excellent commercial partner for Italy (in 2018, the total commercial trade between the two countries reached about 11 billion dollars).

Thanks to the Free Trade Agreement with the European Union, the Korean market is an optimal growth opportunity for Italian entrepreneurs and exporters.

When you enter the restaurant, you can see the open kitchen right away, and there are tables on the right side of the kitchen.

ADM Srl - LATTERIA DEL CURATINO | THE MAST MOZZARELLA&CO

Mozzarella Concept

The business idea was born in 2013 from two businessmen from Campania, Antonio Petrosino and Michele Panticelli, owners of the PCA-Comat (http://www.comatonline.com/), a multinational active in the sector of the production of machineries for dairy products, and Podere dei Leoni (http://www.poderedeileoni.com/), producer of dairy products which are distributed all around the world. Both the companies have been present on the international market for 25 years.

People from Campania, going around the world, sometimes miss something good; a fast and fresh snack: mozzarella! Mozzarella could even be found at the supermarket, left in the fridge without the awareness of its real taste and the right temperature to serve it. From these considerations, the idea of realizing stores which could offer a “just made, fresh and pure” product was born.

Duo Trading Co., Ltd. (ETRO)

Etro is an Italian fashion house that produces textiles, home decor and perfumes. Founded in 1968 by Gimmo Etro, it remains to this day a family business. The entrepreneurial venture began in 1968, when Gimmo Etro, the brand’s founder, launched range of fabrics using noble and natural fibres, which he embellished with original designs and innovative colourways. In 1981 the furnishing textiles line made its debut. The Paisley (design) motif used to enrich the first collection was set to become the Etromark of identity. Leather goods were added to the product range in 1984 with a handbag and travel bag collection in Paisley Jacquard fabric. In 1986 Etro launched the home accessories collection, thus consolidating the brand’s lifestyle concept. The 1990s saw the unveiling of the first men’s and women’s prêt-à-porter collections, their inventive and recherché style earning the label instant recognition. The materials, the workings and a special talent with prints are what make Etro unique and inimitable.

Il Muretto

Italian Restaurant

Activities

Il Muretto in Italian means ‘low wall’. In all Italian cities, the Italian countryside and Italian beaches there are lots of low walls, mostly with hundreds years of history. Most of them were originally built to separate private properties, but then in history they became places where people would actually seat down to gather, spend time together and to enjoy snacks and drinks in the fresh air.

The restaurant is named after those low walls where we spent some of the best times of our youth, and we hope to become client’s special ‘low wall’ here in Seoul.

The chef-owner Biagio Aprea has more than 20 years of experience cooking in various restaurants in Italy and working as a trainer and menu developer in Korean food corporations. In the menu you can find several authentic dishes from Naples, the chef’s hometown.

The Korean-German Chamber of Commerce and Industry (KGCCI) is the second largest foreign chamber of commerce in Korea and has been promoting the economic relations between the Federal Republic of Germany and the Republic of Korea since its foundation in 1981. The history of Osteria Moon began in a quiet alley of Cheong-Ju in the winter of 2007 thanks to the teamwork of resident chefs, managers and cooks.

Osteria Moon represents the perfect mix of Italian traditional cuisine inspired by Cheong-Ju identity and the staff experiences and influences. The travels of Chef Kim in Italy and especially in Umbria are, for example, one of the major inspirations for his creativity.

The menu offers a wide choice of unique delicacies with a special care for local and fresh ingredients. Among the signature dishes, the charcoal smoked meat is a real sensation.

Osteria Moon is also socially involved running a non-profit organization (Force for Food) which goal is to offer gourmet experiences to those families living in the Chungcheongbuk-do area who could not afford them.

Paolodemaria Ltd is a company that moves in the sector of gastronomic culture and Italian cuisine. It was founded in 2010 to educate and experience the real Italian cuisine to Korean by Paolo De Maria, the owner chef and chief professor in various Korean cooking schools and his own Italian Culinary Institute IFSE Korea.

Paolo De Maria, the only Italian cook in Korea up to now, published in 2008 the cook book “Pasta e Bosta” which was the best seller cookbook for 2 years with a circulation of 18,000 copies sold, still used today in various colleges and culinary universities.

He was awarded the Honorary Citizenship of Seoul for his professional and educational merits. He has participated in several television and documentary programs and has been recognized by public opinion as the most influential and well-known Italian chef operating in Korea. During the 2018 Winter Olympics and Paralympics in Pyeongchang, he was consultant and chef in charge of the Paralympic House Italy.

He organized numerous cultural, gastronomic and commercial events in collaboration with the most important Italian institutions in Korea, such as the Italian Embassy in Seoul, the Institute for Foreign Trade and the Italian Institute of Culture.

Paolo De Maria’s journey here in Korea has always been oriented on two different fronts:
- The commercial sector with the paolodemaria Fine Trattoria restaurant.
- The educational sector with the IFSE Korea cooking academy.

The company also deals with planning consultancy and external projects.

To date, thanks to the training courses of Italian Haute Cuisine, IFSE Korea prepares many Korean students for Italian gastronomic culture and organizes the training course at the Italian Culinary Institute IFSE, in Italy, a school officially recognized by the Presidency of the Italian Republic as “Italian excellence”.

The paolodemaria Fine Trattoria restaurant is recognized by gastronomic guides as a reference point for original Italian cuisine, where tradition continuously evolves in a modern key thanks to the creativity of Chef Paolo De Maria.

It has been included by the Gambero Rosso gastronomic guide among the “Top Italian Restaurants in Seoul” and since 2018 the 2 forks have been recognized.

Prada was founded in Milan in 1913 by Mario Prada, Miuccia Prada’s grandfather, who opened the prestigious glass-converted Galleria Vittorio Emanuele II arcade in Milan, an exclusive shop selling leather bags, trunks, beauty cases and luxury accessories, soon becoming a favourite port of call for the more elegant and refined members of the European aristocracy and upper classes. In 1919 Prada was appointed Official Supplier to the Italian Royal Household, as such, it was entitled to incorporate the House of Savoy’s coat of arms and knotted rope design into its logo.

In the late seventies, Miuccia Prada and Patrizio Bertell started their collaboration, laying the foundations for the company’s subsequent international development. Patrizio Bertelli is the first in the luxury industry to introduce a new business model, applying uncompromised quality throughout the whole production chain and a constant, careful control over the entire process. Miuccia Prada’s creativity, able to infuse her work with thoughts linked to her day to day experiences and observations of the environment in an original innovative way – thus anticipating trends – never transcends the brand’s quality core value and historic craftsmanship know-how. This skillful balance makes it possible for Prada to become internationally renowned, so much so that it was recognized as one of the 100 brands with the most value in the world. (Source: Interbrand).

Prada is part of the PRADA Group, one of the global leading companies in the luxury goods sector, which embodies an original business model that successfully combines industrialized product on processes with highly sophisticated workmanship and superb handcrafted goods. The PRADA Group also includes Miu Miu – Miuccia Prada’s vision of an alternative style – a brand with a strong personality, provocative and sophisticated as well as free-spirited and avant-garde: Church’s, one of the world leaders in the luxury footwear industry, established in 1873 in Northampton (Great Britain), and Car Shoe, the first producer of the driving moccasin, characterized by a patent soft sole with rubber stud, established in 1963.

In addition, Prada acquired 80% of Marchesi srl, during 2014, owner of the historic Milanese Patisserie founded in 1824.

The Group manufacturing is concentrated in 22 plants, 19 in Italy, 1 in UK, 1 in France, and 1 in Romania plus research and development laboratories. Each phase of the production process is closely monitored and directly controlled: from the choice to the purchase of the raw materials (external suppliers included), to the creation of prototypes, through to the planning and coordination of external and internal manufacturing. The group products are sold in 70 countries around the world besides a selection of luxury department stores and multi-brand stores, the distribution network is composed of 641 directly operated stores, a strong point in the international growing process of the brand.
In Italy, they say "Mangiare (Eating)", "Cantare (Singing)", and "Amare (Loving)" bring joy in life. We believe that a restaurant must also be a place to enjoy food, sing in joy, and fall deeper in love. We open such a restaurant in Hannamdong. "IL CHIASSO (hustle and bustle)" delivers the joy of Italian cuisine with authentic food, the cheerful service by Italian staffs, and a lively atmosphere created from the restaurant and customers. We look forward to welcoming you.
